

## **CFA is a collaborative initiative that supports companies to structure deforestation-free chains (DCF)**

### **CFA Objective**

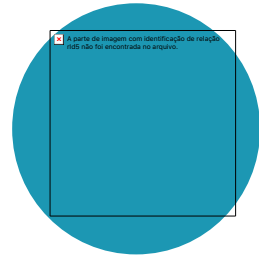

Support companies to have deforestation-free (DCF) soy, meat and leather chains in the Cerrado, Amazon and Chaco by providing knowledge, technical, scientific support and tools.

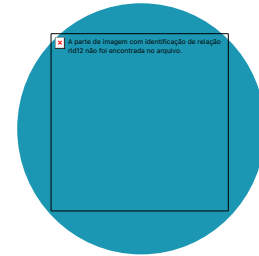

# The CFA Operational Guidance Process and Key Deliverables

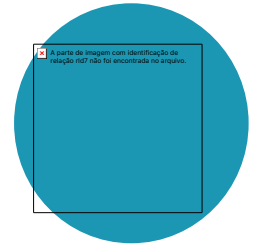

## 3 STAGES PROCESS

1 - Assess

2 - Plan

3 - Execute

## 3 MATERIALS FOR SUPPORT (DELIVERABLES)

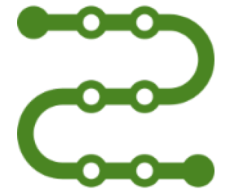

DCF Assessment  
Tool / Summary of  
Results

DCF Implementation Plan  
Template

Technical References

## All stages and deliverables are structured along 5 key elements of supply chain management

- DCF Alignment
- Risk Profile;
- Internal Operations;
- Supplier Engagement;
- Monitor, Verify and Report

## CFA supports companies to structure deforestation-free chains by providing:

Harmonized definition of zero deforestation

Technology solutions for monitoring and traceability

Technical assistance including support for supplier training

Access to financial mechanisms

Chain-wide alignment and business opportunities

Internal Engagement of Business Operating Areas
