## **MEDIA ADVISORY**

# **First profile highlighting the treasures of Cambodian wildlife in the Mondulkiri Phnom Prich Wildlife Sanctuary**

**Phnom Penh – 20<sup>st</sup> July 2016** – The USAID funded Supporting Forests and Biodiversity Project (SFB), implemented by Winrock International, WWF-Cambodia and the Ministry of Environment (MoE), will launch a comprehensive profile of the Phnom Prich Wildlife Sanctuary (PPWS), on **Thursday, July 21 from 9:00 a.m. to 11:00 a.m. together with H. E. Say Sam Al, Minister of Environment and other involved people.**

This 76 pages long profile is a summary of the significant species living within the PPWS and highlighting them with beautiful pictures and also describing the conservation work conducted to preserve the protected area for future generations.

The launch of the profile is organized by WWF-Cambodia in collaboration with the Ministry of Environment, General Department of Administration for the Nature Conservation and Protection (GDANCP) and the generous funding of the USAID “Supporting Forests and Biodiversity” Project.
