Protect forests and ecosystems

A global

goal for

A stand-alone

loss and damage

mechanism

adaptation

2050 targets to phase out fossil fuels and phase in 100% renewable energy

Clear trajectory

mid-term targets

for short and

A global carbon

budget in line with

the IPCC findings

A robust transparency framework to track progress and build trust

Consistent approach to equity captured appropriately in mitigation, MRV, support and adaptation

for public and private climate finance in the Five year mid-to-long-term commitment

Clear approach to addressing emissions from Regular reviews forests and land use of efforts (mitigation and

> Periodic opportunities to ramp up efforts

support)

periods

Clear links between pre-2020 and post-2020 processes to address ambition gaps

Equitably scaled up pre-2020 mitigation efforts and support

Moving from identification of mitigation opportunities to implementation particularly for renewable energy and energy efficiency

Clear mandate for annual high-level events to launch new actions or additional support

Ratification of the Kyoto Protocol Second Commitment Period

Roadmap and pledges to deliver USD100 billion per annum in climate finance by

Clear guidance to the financial and technical bodies of the UNFCCC

PROTECTION • STRONG **FOR THE VULNERABLE**

SIGNALS THAT **GHG EMISSIONS WILL BE PHASED OUT EQUITABLY**

CLEAR GUIDANCE FOR COUNTRIES' MITIGATION, **FINANCE AND** ADAPTATION

A REVIEW AND **RATCHETING MECHANISM** TO SCALE UP **EFFORTS EQUITABLY**

CLEAR RECOGNITION OF THE AMBITION GAP AND CONCRETE STEPS TO **CLOSE IT EQUITABLY**

Why we are here

To stop the degradation of the planet's natural environment and to build a future in which humans live in harmony with nature.
