DESCRIPTION

San Agustín Pando S.R.L. commercializes simple sawn Air Dried (AD) wood. They extract logs to saw and prepare measured boards to be transformed into final product. The company's sawmill, located in Federico Rom_n province in the department (state) of Pando, has Chain of Custody (CoC) certificate and works under forestry management plans with communities of Pando and Beni (Vaca Díez province).

All management plans are under the Forestry Superintendence standards and they work with inhabitants of Indigenous Communal Lands (referred to as TCO).
