By invitation and open entry.

IUCN  
WORLD PARKS CONGRESS  
SYDNEY 2014

The IUCN World Parks Congress is held every 10 years with the next to be in Sydney Australia from 12th to 19th November, 2014.

The CTI-CFF has registered a Side Event and Reception titled “Celebrating Achievements in the Coral Triangle”, to be held on Thursday 13th November, 2014.

This high level event, hosted by the CTI-CFF, the Australian Government and other Development Partners, will bring together representatives from the Coral Triangle community and beyond to showcase the CTI-CFF, celebrate its achievements and highlight future directions and new commitments. It will create space to reflect on progress in marine conservation since the creation of CTI-CFF for the benefit of biodiversity and people, including the Coral Triangle Marine Protected Areas System and its flagship MPAs and Ecosystem Approach to Fisheries Management.

The objectives are to reflect on the success of the Coral Triangle Initiative on Coral Reefs, Fisheries and Food Security (CTI-CFF) in order to:

- Provide a setting for the announcement of achievements and future commitments;
- Encourage and facilitate broadened participation in the CTI-CFF by new member countries and new donor/implementation partners;
- Inspire and inform similar efforts elsewhere; and
- Strengthen networks within the CTI community and with other communities.

This is an opportunity for the CT6 countries and development partners to showcase the CTI-CFF at this once in every 10 year congress focused on protection of the natural environment.

**Logistics/details:**

Date: Thursday 13th November 2014

Venue: Howie Complex and Garden
