

## **Domestic processing companies participating in Vietnam Yellowfin Tuna FIP**

In order for FIP industry partners (“FIP Participants”) to have recognized FIP products in the marketplace, they are required to demonstrate that their yellowfin tuna products are coming from the FIP i.e. that they are sourced from legally permitted Vietnamese handline vessels.

In order to support such companies with their sourcing of FIP tuna, a FIP traceability program was developed in 2017, designed in close collaboration with industry partners and third-party auditor experts. Following ongoing outreach, training and coaching on use of the FIP trace code, interest among Vietnamese processors to participate in the FIP code program continues to grow, and their performance is steadily improving. Two 3<sup>rd</sup> party audits of the FIP code have been undertaken, in 2017 and 2019, with plans to mainstreaming to regular (annual) audits.

As of April 2020, the following processors in Vietnam are eligible to provide FIP products to international FIP Participants (categorized by audit history):

### **1. Completed Two (2) FIP Code Audits (2017 and 2019)**

- Hai Long (Dragon Waves / Hai Vuong)
- Hong Ngoc Seafood LTD
- BIDIFISCO

### **2. Completed One (1) FIP Code Audit (2017 or 2019)**

- Ben Vung - Sustainable Seafood Company (SSC) (audited in 2017)
- Thinh Hung (2019)
- Tin Thinh (2019)
- Tuna Vietnam (2019)
- Ba Hai (2019)
- The Lights Seafood (2019)
- Mai Tin / Evertrust (2019)
- Seabery (2019)
- T & H Nha Trang Co. Ltd (2019)
- JK Fish Joint Stock Company (2019)
- Thanh Thai Food Co. Ltd. (2019)

### **3. Committing to FIP traceability program but (as of April 2020) unaudited:**

- Hai Vuong Co. Ltd (Main Factory)
- Phuc Nguyen Seafood LTD

- Nha Trang Bay (Vinh Nha Trang)
- Trang Thuy Seafood
- B-T Seafood Co. Ltd
- Mai Tin Binh Dinh Co. Ltd
- Thien Ma - Thien Ma Co. Ltd
- Dai Hoa Ltd.

The FIP Coordination Team, led by VinaTuna, continues to work with all processors in steadily improving performance, implementing corrective actions, and continued regular auditing. The above information will be updated regularly as required.

For further information on requirements for companies interested in sourcing recognized yellowfin tuna FIP products please see [here](#). For other information, including details of individual factory audits and updated status please contact:
