1. INTRODUCTION

WWF Tanzania through its department dealing with Information and Communication Technology aims at procuring a system that will automate different operations ranging from call for proposals, proposal writing & submission, execution (procurement), Finance and HR) and reporting. The system that will cater for activities under contract management, budgeting processes, procurement and finance, assets, fleet management and employee’s management.

2. PURPOSE OF THE ASSIGNMENT

The main objective of the assignment is to improve service delivery by having all the systems integrated into one and speed up turn around time for processes to be completed. This will also improve quality of services provided by supporting departments to the conservation team and will as well provide a good audit trail.

2.1 Specific objectives

1. To improve budgeting practices and procedures by focusing on results-oriented approaches to budgeting and management. Making the budget process more responsive to priorities: Management reports will help improve budget rates and when reports provide “real time” integrated Budgets – Actual Spend – Information on the Variance between Budgets and Actuals.

2. To implement a management to priorities by devolution and decentralization of budget spending responsibility Focus on financial arrangements that increase flexibility and performance: to departments (M & E, Communication, Partnership and Fundraising, People and Culture, Risk Management). Improved workforce morale as these departments for many years have been budgeting, but less financial resources were allocated to meet their planned activities.

3. To align the finance and procurement department workforce size and structure in line with the proposed integrated planning and integrated landscape and seascape approach. This is a pro-active approach to integrated planning and implementations.

3. METHODOLOGY

Basing on the understanding obtained on WWF processes, a consultant will be required to visit WWF Tanzania Dar es salaam office (Head Quarters) and get in-depth understanding of all the processes across all the supporting department.

The consultant will get chance to interact with all the individual systems that WWF Tanzania have and come up with a report to analyze the feasibility and cost implication if all the existing systems were to be modified and integrated into one system.

4. OUTPUTS AND DELIVERABLES

i. Demonstration of existing systems prior to engagement

ii. Feasibility report on integration of existing WWF systems

iii. Suggested system, installation (in phases), and training to staff

iv. User manual

v. After sales services

5. TECHNICAL PROPOSAL AND FINANCIAL PROPOSAL

Technical Proposal

Based upon the scope of the assignment, the Bidder is expected to submit along with the technical proposal, describing the type of systems they can come up with in this project. Bidders should demonstrate professional competency in their tender submissions. Bidders must be able to demonstrate their capability to produce work of the highest quality through the type of systems they can come up with in this project. Bidders should demonstrate professional competency in their tender submissions.

Financial Proposal

The financial proposal to be presented in a separate envelope should provide a clear and detailed breakdown of all costs that would be associated with undertaking the entire project, together with the proposed payment schedule.

The budget should be fixed price (incl. VAT), based on estimated time spent on the assignment, and given in Tanzania Shillings (TZS) or USD.

Only bids that have attained a rating above 70% in the technical evaluation will proceed to the financial evaluation stage.

6. REQUIRED EXPERTISE AND QUALIFICATION

Education

Bachelor’s Degree in computer and database programming related fields and IT professional certifications

Experience

• At least 5 years in providing database programming services preferably in international organizations

• Proven track records in database designing, programming and database management to at least 3 international/National organization

• Tangible reference and portfolio of previous similar assignment is a must.

• Knowledge, understanding and experience of working with INGOs (an added advantage)

7. DURATION OF THE ASSIGNMENT

The assignment is expected to be carried out within 4 weeks effectively commencing from the date of signing of the contract.
